

Are You Intimidated By ATC?

Intimidated by ATC? What is LAHSO, and do I need to comply? What does "line up and wait" mean? What is a 'short approach'? We will provide answers to these questions. Additionally, we will be discussing Burlington tower and approach operations, and looking at some of the tools they use to help you navigate and communicate within Burlington's Class "C" Airspace. Don't miss this exclusive event. Click on the link below and register TODAY.

Directions: I-89 to Exit 7. After the third traffic light, turn right and follow Airport Road to the airport terminal (first brick building on your right).

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
